

Prepare macOS for Adobe Acrobat

1. Click on Finder and select the Applications folder from the menu on the left side of the window.
2. Double click on the Utilities folder.
3. Launch the “Terminal” application.
4. Type “/usr/sbin/softwareupdate --install-rosetta” without the quotes on the command line.
5. You may be prompted for your local Mac password. If so, enter your password and press enter.
6. You will be prompted to accept the installation of Rosetta 2. Type an upper-case A to accept and install the application. You should see a “Installation of Rosetta 2 finished successfully” message.
7. Preparation is complete and you can continue to the next section.

Download and install Adobe Acrobat on your Mac

1. Using any browser go to <https://hwg.tools/macOS>.
2. Click the link or icon to download Adobe Acrobat from the HWG website.
The download is 1.5GB so this could take some time depending on your internet speed.
3. Once the download is complete, open the folder that contains the Acrobat file.
4. Double click on the Adobe_Acrobat_en_US_MACARM.zip file to unzip.
5. When the unzip process is complete you will see an Acrobat folder.
6. Double click on the Acrobat folder to see its contents.
7. Double click on the Acrobat_Install.pkg file to begin the installation process.
8. Follow the prompts and exit when Acrobat is installed.

License Adobe Acrobat to your user account

1. Launch Adobe Acrobat DC from the Applications folder.
2. You will see an activation window appear.
3. Enter your HWG email address when prompted.
4. Select Work or School account when prompted.
5. Enter your HWG email if prompted again or your HWG password.
6. Use Duo Authentication to verify your HWG credentials.
7. Once complete, your Acrobat will be fully licensed and ready for use.
