Download and install Pulseway Management Agent

1. Using any browser go to https://hwg.tools/macos.
2. Click the link or icon to download Pulseway from the HWG website.
3. Once the download is complete, open the folder that contains the Pulseway file.
4. Double click the Pulseway.dmg file.
5. When the Install Pulseway window appears, drag the Pulseway icon to the Applications folder.
6. Close the install Pulseway window.
7. Open Finder and select the Applications folder.
8. Double click on Pulseway to launch the application.
9. A warning appears that Pulseway was downloaded from the internet. Click "Open."
10. A warning appears notifying you that Pulseway is trying to install a new helper tool. Enter your local Mac password and click Install helper.

Register Pulseway

1. Click on the padlock to enable editing of the Pulseway settings.
2. Click on Register System.
3. For the username enter macsetup and the password HWGMacOSSetup for the password. The password is case sensitive.
4. Check the Use dedicated Server box and enter hwglaw.pulseway.com for the server name.
5. Click authenticate.
6. You will be prompted to select the Agent Group the system will belong to.
7. Select HWG for organization, M365 for the site, and macOS for the agent group.
8. Click register.
9. When the system registration successful box pops up, click ok.
10. Click OK on the Pulseway window to close the application.
